Benelux Surgical

established in Sialkot – Pakistan and have more than 15 years of experience in manufacturing Surgical & Dental Instruments. This family owned and operated company has export relationships around the globe. The Head Office and Manufacturing unit are one of the largest facility in Sialkot for manufacturing Surgical, Dental Instruments.

Our company certified ISO 9001, ISO 13485 & CE Mark

Our Mission

Focussing on ultimate leadership and serving Humanity. We will serve Humanity with high quality, safe and durable products and create a new concept of market leadership. We enhance this vision by giving exceptional after sales services and support to our clients.

Quality

At Benelux Surgical, we make every effort to produce products of the highest quality, as we are aware that being good is not enough. We are in the age of excellence where only excellent things sell. Stringent quality checks are conducted to check the quality of products. Our QA (Quality Assurance) Department checks the quality of instruments during the various stages of manufacturing and finally before it's packing, to ensure that every tool we produce is of high quality.

WHY US

As an infinite range of Surgical & Dental Instruments, we tried to put the most common range in our website. However if some articles are missing or if you require any specific sizing or finish (Polish, Satin or Sand Finish) we will be glad to hear from you in order to manufacture them. That's why we have a large number of clients abroad. We are also keen to know about our customer needs, we appreciate their suggestions so that we can improve our products and services for our clients and provide them with high quality products at a competitive price.

Looking forward to doing business with you.

ROOT ELEVATORS

lower jaw, left side

lower jaw, right side

BL1200

BL1201

Root elevator, spiral-shaped, for extremely facilitated extraction of the molars in the lower jaw. The slender, conical points allow deep penetration between tooth and gum. Owing to the hook-shaped working parts, slipping of the elevator is avoided.
